Lightweight and elegant

Choice at the chic

The design of headset combine smooth lines with elegant colors. And it creates a chic and attractive fashion look. A variety of colors are available for matching that you like.

GRACE

Lightweight design

Comfortable to wear

The light headset only weighs about 225g. The headset beam can be stretched to adjust length. And this headset uses soft protein leather all-inclusive earmuffs. All of these make headset to be skin-friendly and comfortable to wear.

Delicate and high resolution

Present the original music sound

Built-in 40mm dynamic unit carries with high resolution and presents a vast sound field. It presents rich and original musical details. And it truly restores beautiful music.

40mm

Bluetooth 5.3

More stable connection

New upgraded Bluetooth V5.3 chip carries with lower power consumption and more stable connection. Presenting smooth sound transmission is not easy to be stuck.

V5.3

Say goodbye to low battery anxiety
