-20dB Deep Noise Reduction Immerse in Wonderful Music

*The noise reduction depth of $-20\pm 3\text{dB}$ is achieved by active noise cancellation and passive noise cancellation. The noise cancellation data is obtained from the test of HAVIT acoustic laboratory.

Using active noise cancellation technology, the noise reduction depth can reach $-20\pm 3\text{dB}$. Let you immerse yourself in wonderful music.

50^{hours} Battery Life

The low-power chip and high-performance battery provide about 50 hours battery life for listening all day long.

■ Adjustable

40MM

Immersive Stereo Sound

With 40mm dynamic driver unit, it presents immersive stereo sound. And you can immediately be in the live music scene.

Dual Device Connection

It can connect two devices at the same time and switch between them when needed.
