## 1080P HD RESOLUTION

1080P high-definition resolution  
presents more image details.

---

## INFRARED NIGHT VISION

High-power LED infrared light provides stronger night vision effect.

## TWO-WAY VOICE COMMUNICATION

It supports two-way voice real-time communication. We chat with each other as like as face-to-face communication at anytime, anywhere.

Two-way voice communication refers to calling the IP camera through Tuya APP to realize two-way conversation.

## AI INTELLIGENT DETECTION

When a human figure or sound source is captured, it will immediately track and shoot to protect the safety of the family.

HUMAN TRACKING  
AUTO CRUISE TRACKING  
SOUND SOURCE TRACKING

## 360° VIEWING

With two-way gimbal design, the viewing angle of IP camera can reach 360°. The situation at home is clear at a glance. And it helps you feel more at ease.

---

## 2.4GHZ WI-FI CONNECTION

It supports 2.4GHz Wi-Fi connection, which improve the transmission speed and make the connection more stable.

## MORE VIDEO BACKUP

IP camera support 8~128GB TF card storage and cloud storage. More video storage backups make people feel more at ease.

---

# MULTI-DEVICE REMOTE VIEWING

It support remote viewing of TVs, mobile phones, tablet PCs and other devices, which runs Android and Apple system.

## SPECIFICATION

Resolution: 1080P  
App: Tuya  
TF card support: 128GB(MAX)  
Power: DC 5V/1.5A  
Support mobile system: IOS 7 & Android 4.0 Up  
Cable length: 1000mm  
Size: 80×80×120mm
