48K 16bit

Record Clear Sound Even in Noisy Environments

To activate or deactivate noise reduction mode, simply double-tap the power button.

The power button

Advanced 2.4GHz Wireless Technology for Exceptional Anti-Interference Capability

The Omic is a 2.4GHz wireless microphone boasting robust anti-interference capabilities, ensuring crystal-clear sound quality in challenging environments. With an operating range of up to 50 meters, it offers users the flexibility they need.

50m

Additional Wear Options with the Detachable Magnetic Belt Clip

The Omic's belt clips can double as magnetic plates, offering greater flexibility for users when wearing the microphone.

Enjoy the Convenience of Wireless Charging

The Omic's charging case supports wireless charging, enhancing convenience and reducing the need for charging cables.

Suitable for Scenarios Where Two People Are Recording with the Dual-Channel Feature

The Omic has two transmitters, enabling two people to record simultaneously. Ideal for interviews, vlogging, streaming and so much more.

Charge Your Device While in Use

The Receiver's Type-C interface lets you charge your device while using it for long periods, perfect for speeches, live-streaming, and filming.

*Please note that this function is limited to use with Lightning and Type-C connectors only.

Automatic Pairing for Easy Set up

The Omic pairs automatically when taken out of the charging case. No adapter cables are needed, making it super easy to get started.

Ultimate Compact and Lightweight

With a thickness of 9.7mm and a width of 2cm, the transmitter is exceptionally slim and stylish.
